HONGKONG, MONDAY, PRERUARY 18, 1889.

Ir would appear that the Secretary of State for the Colonies has approved of the Praya Reclamation scheme being carried out by the marine lot-holders, with certain modifications. Lord Knutsford requires the new Praya to be 75 feet wide, instead of 65 -which of course deducts 10 feet from the building space of each marine lot—and that the additional wat be making the wider road (\$40,000) be paid by the marine lotholders. The second modification is that the private lot owners shall compensate the owners of existing piers and wharves which will be swept away by the reclama-LE, BRISBANE, SYDNEY, MEL- tann. But here the letter of the Colonial Secretary becomes so involved in its wording, that it is difficult to understand what is meant. The private pier-owners appear to have been considered by the Secretary of State, while the public piers and wharves—through inadvertence, it is stated -were not brought to the notice of the chief at the Colonial Office. H.E. the Governor endeavours to make up for this omission; but his language unfortunately is so obscure as to leave in doubt what he intends to convey to Mr Chater, the marine lot-owners, and the public. Here

is the sentence which we allude to,

and our readers may make what they can

of its various clauses. Whether it means

that, the Government not being liable for

any compensation to anyone, the private

marine lot-holders must pay for all wharves

and piers, or that the Government, while

leaving the private let-owners to pay for private wharves, accept the liability to pay a share of compensation for the public piers, -we do not presume to decide. The wording is as follows :--Deducting from the total compensation to be given to private pier owners, the amount which represents the Government share of the Reclamation (which portion of the scheme is wholly for the public benefit, and therefore to that extent excluding the moral claim above referred to) the Governor understands that the maximum sum required for compensation in respect of piers, both public and private (it being impossible for some weeks to obtain more exact figures), will be \$180,0'0; which, together with the \$10,000 above referred to, makes up a total sum of \$220,000, or 191 cents per foot of the lot-owners' portion of the Reciamation, or four per cent of the profit, which accord-

ing to the lowest estimate will be derived

from the project by the frontage lot-

holders.

kind of threat that the Government will do the work, if the lot-owners decline to accept the terms, and accompanies this with the expression of a hope that the let-holders will accept the modified scheme. Of course, all this proceeds on, the assumption that the entire body of lotowners have consented to the scheme as proposed by Mr Chater. We are assured that such is not the case; and if there be still dimentient owners who block the way," they will probably have to be dealt with later on. It is not a little remarkable that. in face of what is generally supposed to have been a strong representation made by the Governor against this enormous present being made to the marine lot-holders, the Secretary of State abould have decided this matter against the general body of ratepayers, so easily, so sirily and so curtly. Indeed, the general body of ratepayore speiches in which this question was sol forth to the Colonial Office authorities, together with the raplica thereto, As it is, however, we do not regard the mode of disposing of this property as quite settled, although the mtepayers seem to have looked upon the achiect as no concern of theirs, and have merely growled in private, although a vigorous spitation might have resulted in a substantial decrease in the bosse rates which now weigh pon no many residents of moderaton towns.
